Document status:

☐	To be revised by partners involved in the preparation of the document
☐	For review/ approval by the Core Alignment Team and Peer Reviewers
☐	For approval by the NAPCORE Steering Committee
☒	Final
☐	Updated/revised final version (e.g. when a second version of Milestone is published)

Abstract

This document aims to collect all the contributions produced by H.3 team in cooperation with entire NAPCORE Groups and Sub-working groups regarding the Dissemination of results of the project.

The paper refers to the period from 1st April 2021 to 31st December 2022.

Initially, the global pandemic did not allow the organization of face-to-face meetings, so the organization of events and Workshops took place mostly from June 2022 onward, starting with the Steering Committee and CAT meeting in Stockholm.

The content of the Dissemination Report – activities that provide publicity for NAPCORE – is created by all members through their commitment in the activities, for example by technical papers concerning Milestones and Deliverables achieved, or by their promotion of these results during workshops, congresses, meetings. Other important visibility of the project is achieved through articles in newspapers, posts on LinkedIn and highlights on the website.

Abbreviations

Abbreviation	Meaning
EC	European Commission

CAT	Core Alignment Team
NAP	National Access Point
NAPCORE	National Access Point Coordination Organisation for Europe
SC, SCOM	Steering Committee
SCS	Steering Committee Support
SWG	Sub-working Group
WG	Working Group
WP	Working Programme

1. DISSEMINATION TOOLS

1.1. NAPCORE website

One of the main tools for providing information on the NAPCORE project is the website, available at the following address: <https://napcore.eu/>

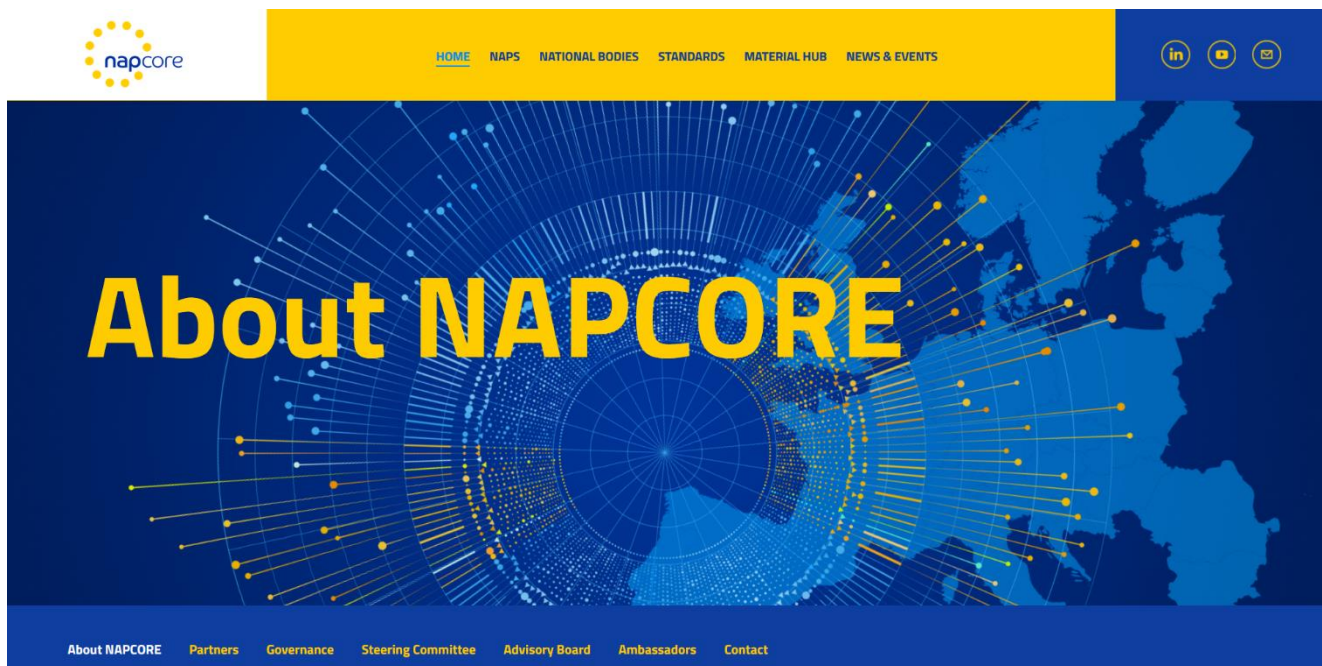

Figure 1 – NAPCORE Website

The website is accessible to any user and promotes the activities and achievements of the project to the external community.

It is updated whenever necessary, to provide up-to-date information on the recent results or evolution of a specific topic.

The latest news or events are published on the dedicated page as well as on the “Home” page in order to highlight the information.

The structure of the NAPCORE website is reported in the Figure 2.

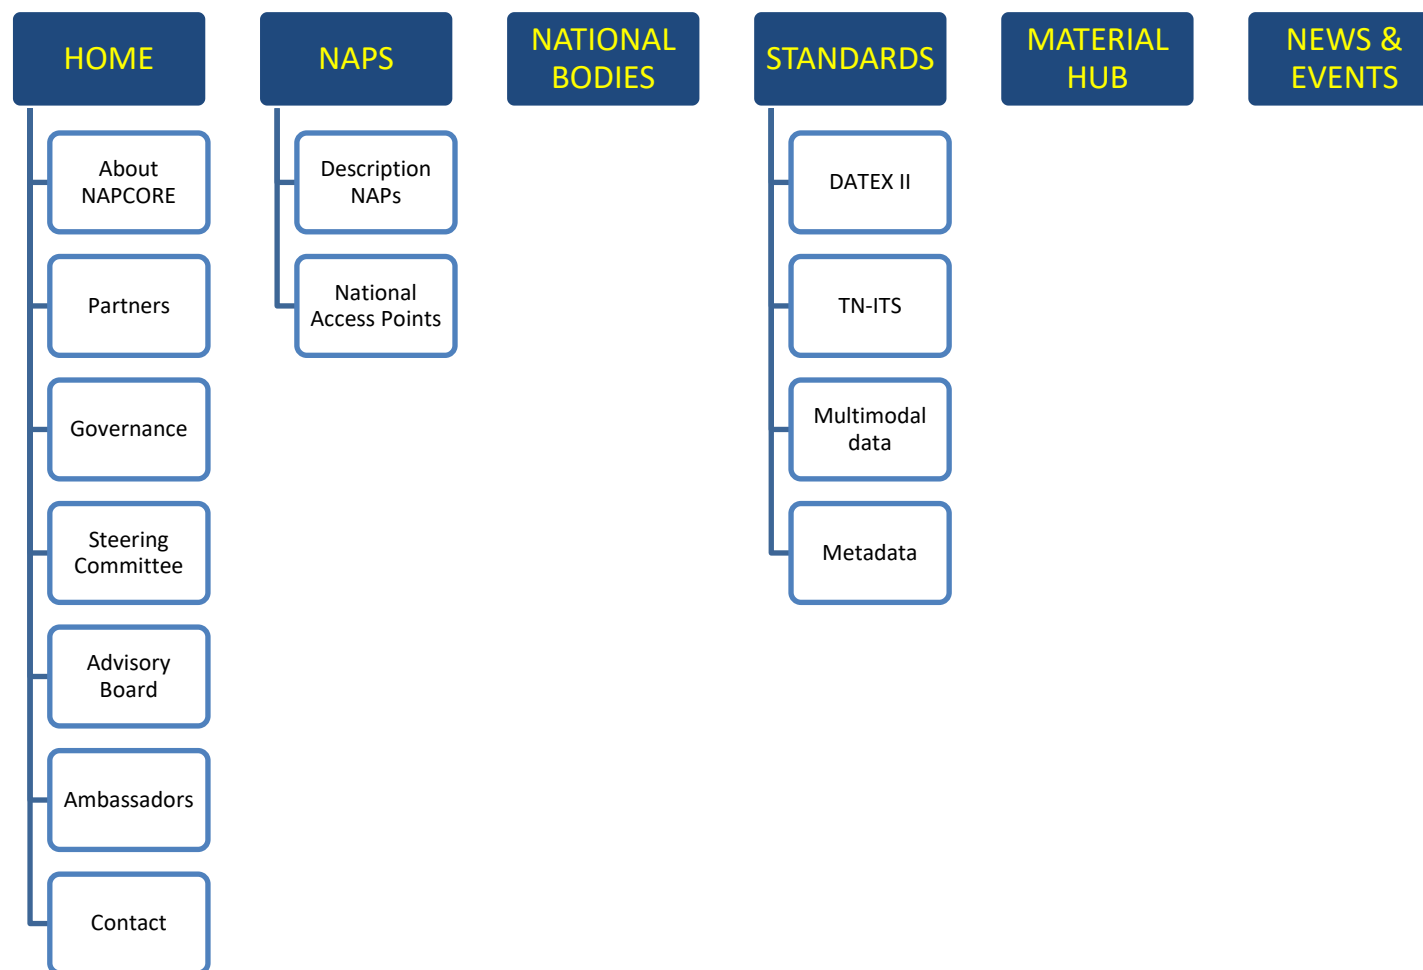

Figure 2 – Structure of the NAPCORE website

1.2. Social media

1.2.1. LINKEDIN

The LinkedIn page is active at this link <https://www.linkedin.com/groups/12432452/>

All members may connect to the group. The aim is to share links to articles, posts, or videos and to inform on webinars, events, meetings, achievements, and any news that could be of interest to the group and external community.

Moreover, each partner can share project news, published on the NAPCORE LinkedIn page, through the own LinkedIn page or own communication channels to relevant stakeholders or external parties.

The posts published in 2022 are reported in the chapter *“RESULTS OF THE DISSEMINATION”* - Section 2 - *LinkedIn Posts*.

1.2.2. YOUTUBE

A YouTube Channel was created to gather all workshops as well as events videos, presentation videos, and in the future interviews, trainings, and any other kind of visual tool.

WG and subWG leaders involved in training activities are expected to co-operate by recording and providing the videos of trainings, webinars or other events.

The video published in 2021-2022 are reported in the chapter *“RESULTS OF THE DISSEMINATION”*- Section 3 — *YouTube*.

1.3. Articles and Presentations

Another important dissemination tool consists of the preparation of specific technical papers and/or interviews on the NAPCORE project and its developments, which have been published in specialized international magazines.

Moreover, to contribute to a wide dissemination of NAPCORE project, many of partners have participated to forums, congresses, and events, presenting the project and the results of their activities.

The details concerning articles and presentations made in 2021-2022 are reported in the section chapter *“RESULTS OF THE DISSEMINATION”* - Section 4 – *Articles and presentations from the Dissemination Tracker*.

2. DISSEMINATION ACTIVITIES

The following sections list all public NAPCORE documents published in the years 2021 and 2022.

Documents are listed in chronological order and classified into four categories:

- ✓ Section 1 – Website
- ✓ Section 2 – LinkedIn Posts
- ✓ Section 3 – YouTube
- ✓ Section 4 – Articles and presentations related to events

The structure of each document reported in the four categories is the following:

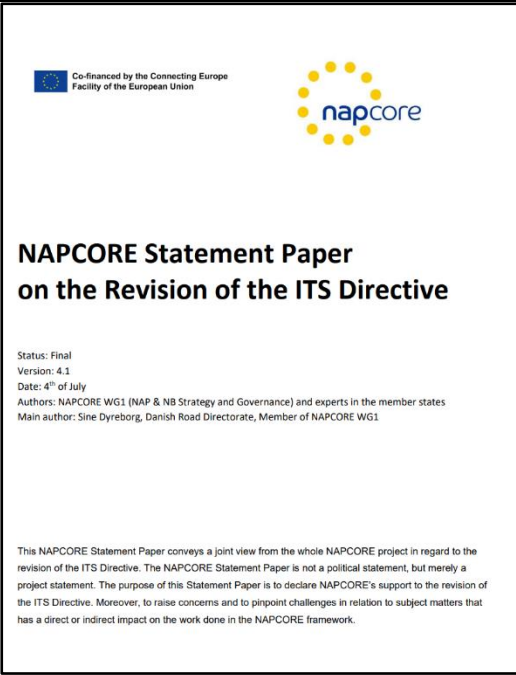

Title reported
Date of the post
Image published
Text uploaded

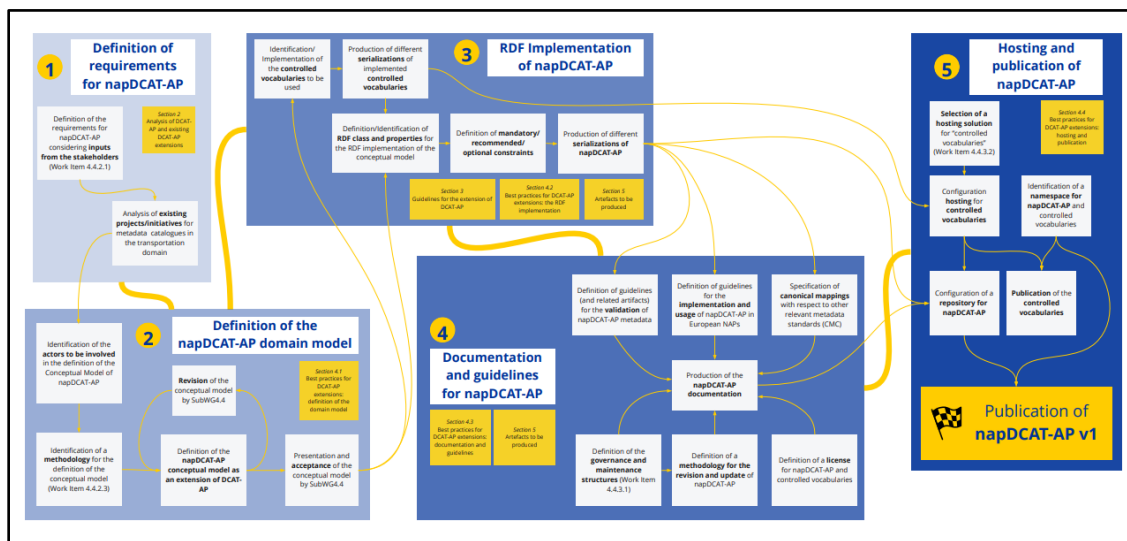

In Section 1, the name of the Working Group in which the activity was developed or achieved is printed above each document.

2.1. Section 1 – Website

Title	Update on NAPCORE and a virtual public event invitation
Date	18th February 2022
Image	 The image is a poster for a NAPCORE virtual event. It features the NAPCORE logo at the top, followed by the title 'NAPCORE – The Mobility Data Platform Coordination Organisation – Virtual Event'. Below the title, there is a paragraph describing NAPCORE's mission to coordinate and harmonize all European National Access Points (NAPs) for mobility data. It then states that the virtual public event introduces the project and outlines how NAPCORE will support steps towards the creation of European-wide solutions to better facilitate the use of EU-wide data. The event specifically targets interested European mobility data users and stakeholders, stakeholder groups and associations. An agenda is listed, including setting the scene, the steering committee, general overview, NAP interoperability, NAPCORE-led mobility data exchange standard harmonisation, and national bodies harmonisation. A registration form is provided at the bottom, with fields for First Name, Last Name, Email Address, and Organization, and a 'Register' button.
Text	Here a short news update on NAPCORE and a virtual public event invitation: - After the official start of NAPCORE at the end of last year, we have been busy creating an ambitious Working Programme for 2022 which has been approved by the NAPCORE Steering Committee and reviewed by DG MOVE. - In all our Activities and Working Groups the proper work has started, and we are actively working towards reaching our first milestones. - The NAPCORE Advisory Board is beginning to take form and we will make a first round of reach out to potential members over the next weeks. To give you and everyone the chance to get to know NAPCORE, learn what we are working on currently and plan to accomplish in the near future, we will have a virtual public event on 18 February 9:00-10:00 CET. The agenda and registration form can be found here: https://lnkd.in/dGh2egaS Hope to "see" you there! Feel free to share to your interested colleagues and friends.

● In case you have missed it: The video of the public event organised for the presentation of the NAPCORE project is available at this link: <https://lnkd.in/dNQriPW8>

Speakers:

☒ Kristian Hedberg, Head of Unit B4 at DG MOVE, European Commission

“Setting-the-scene: NAPCORE from the EU Commission’s viewpoint”

☒ Anna Johansson Jacques, NAPCORE Steering Committee Chair, Swedish Transport Administration

“The NAPCORE Steering Committee”

☒ Timo Hoffmann, NAPCORE General Secretary, Federal Highway Research Institute, Germany

“General Overview of NAPCORE, its vision and strategy”

☒ Chrysostomos Mylonas, NAPCORE WG3 lead, Center for Research and Technology Hellas, Greece “NAP interoperability, data content and accessibility”

☒ Bard de Vries, NAPCORE SWG 4.1 lead, National Road Traffic Data Portal, The Netherlands “NAPCORE-led mobility data exchange standard harmonisation”

☒ Damaris Anna Gruber, NAPCORE Deputy General Secretary, AustriaTech, Austria

“National Bodies harmonisation and NAPCORE Advisory Board”

Title WG5 of NAPCORE had a physical Workshop in Vienna**Date** 19th May 2022**Image****Text**

● On May 16th and 17th WG5 of NAPCORE had a physical Workshop in Vienna

🎯 It was a great opportunity to: share developments, work together face-to-face to carry out the work group's activities and make an initial assessment one year after the start of the project.

Main topics of the workshop:

- ☒ Discussion on potential Best practices for Compliance Assessment
- ☒ Discussion on possible Maturity Level classification for the National Bodies
- ☒ Compliance Assessment / Random inspections / Accompanying Documents

- discuss the possible structure respectively the requested content of accompanying documents
- discuss common process elements for compliance assessment and methods for random inspection

- ☒ Quality & evaluation criteria / reporting obligations

- discuss common templates/processes for reporting to EC and Member States
- discuss existing quality and evaluation criteria and possible WG5 requirements

- ☒ Analysis of legislation status of the different National Bodies

Title NAPCORE Steering Committee members met in Stockholm**Date** 5th August 2022**Image****Text**

🟡 21st June NAPCORE Steering Committee members met in Stockholm.

Attendants had the possibility to take stock of the progresses in the activity and exchange their views.

The “Word Café” was a great success with its brainstorming sessions on strategic topics introduced by moderators:

- ☒ Revision of the ITS Directive Sine Dyreborg
- ☒ European National Access Point(s) Lúgia Conceição
- ☒ Topics of future CEF calls Annet van Veenendaal
- ☒ NAPCORE: achievements and expectations Timo Hoffmann

A special thanks needs to be extended to the SCOM chair Anna Johansson Jacques and her staff for the excellent welcome, to Timo Hoffmann, Damaris Anna Gruber and Kalojan Daskalow for the planning of the meeting, to all speakers and participants both physically and connected via Teams.

Programme NAPCORE Mobility Data Days • 5 pages

PROGRAMME NAPCORE MOBILITY DATA DAYS 3RD - 4TH NOVEMBER 2022 – PARIS

3RD NOVEMBER - PUBLIC DAY 1

TIME	SESSION	TITLE	DESCRIPTION
09:00 – 11:15	Alternative fuels	Alternative fuel data at the NAPs	How can the results from the IDACS project be used by NAPCORE? What role do the NAPs play in relation to the European Alternative Fuels Observatory (EAFO)? What are the challenges that NAPCORE needs to take on? Plans and experiences in relation to prepared delegated regulation on alternatives fuels.
09:00 – 11:15	NAP data quality	Quality Frameworks for NAP datasets	Role and importance of describing and assessing quality aspects for datasets at NAPs; Review of past Quality Frameworks by EU EIP; Outlook to future Quality Frameworks by NAPCORE WG 3.
09:00 – 11:15	Mobility Data Space	NAPs and/in the Mobility Data Space	The NAPs are by now an established (mobility) data ecosystem. The European Commission, various Member States and Industry stakeholders are also pushing for, planning, and building a new ecosystem, with a partly different but overlapping use case and users. Both "worlds" have good reasons to exist, so cooperative co-existence is called for. How can this look like? What role do NAPs play in the MDS and vice versa?
11:30 – 12:30	PLENARY OPENING SESSION		
13:30 – 15:15	Traffic Regulations		Several datasets in the revised RTTI delegated regulation are related to traffic regulations, traffic regulation orders and comparable legal constructs. In this session we will explain how the DATEX II and TN-ITS standards support the dataprovision of these datacategories. Especially the usecases addressing the dynamic and static dataprovision will be addressed as well as the the UVAR data provision will be addressed.
13:30 – 15:15	NAP architecture and harmonization	Interoperability and level of service of NAPs	Session aimed at providing information on the work planned within WG2 and the results already obtained in relation to NAP's LoS. The concept and methodology behind the NAPs' interoperability demonstrators will also be discussed and presented.

● NAPCORE Mobility Data Days ●

MMTIS data on NAP: challenges and opportunities

4th November 2022 - 08:45 - 10:15

The session will focus on "MMTIS data on NAP: challenges of the implementation and opportunities of the revision of the MMTIS delegated regulation".

The registration is open at this link: <https://lnkd.in/de9FEQep>

Title NAPCORE Mobility Data Days “NAP architecture and harmonization”**Date** 21st October 2022**Image****Text**

● NAPCORE Mobility Data Days ●

NAP architecture and harmonization
3rd November 2022 - 13:30 - 15:15

This session provides information on the work planned and the results already obtained within WG2. Three major topics will be addressed:

1. NAP LoS KPI Framework (NLKF) and how LoS in NAPs can be interpreted in the future
2. Concept for developing a NAP reference Architecture
3. The concept and methodology behind the NAP demonstrators and the relationships among them:
 - Interchange Demonstrator: Making use of real time SRTI data cross boarder
 - How to convert a NAP LoS framework into a concrete NAP implementation? A case study from Germany
 - The NAP Marketplace role within an Impact Driven Traffic management model
 - The relevance of Alternative Fuels data in the NAPs

Title NAPCORE Mobility Data Days “NAPs and the Mobility Data Space”**Date** 24th October 2022**Image****Text**
 NAPCORE Mobility Data Days

NAPs and the Mobility Data Space

 3rd November 2022 - 9:00-11:15

The NAPCORE Mobility Data Days on 3-4 November in Paris are in the final stage of planning and preparation and offer a wide variety of interesting sessions.

On Thursday 3 November 9:00-11:15 we will have a session about the "Mobility Data Space" and its relation to the National Access Points of Europe.

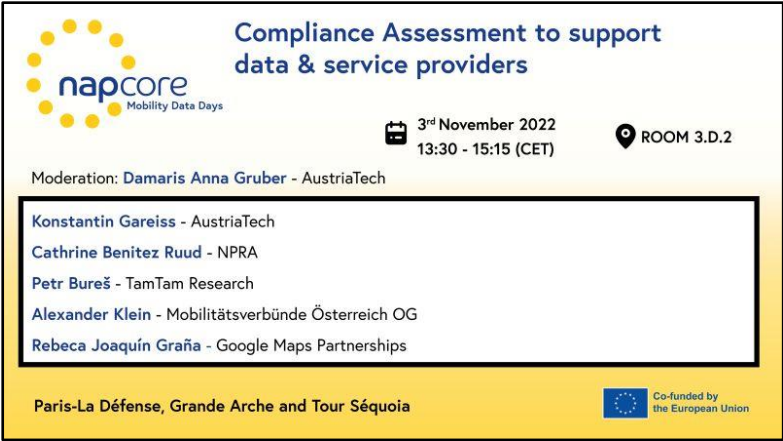

The NAPs are by now an established (mobility) data ecosystem. The European Commission, various Member States and Industry stakeholders are also pushing for, planning, and building a new ecosystem, the “Mobility Data Space (MDS)”, with partly different but overlapping use cases and users. Both “spaces” have good reasons to exist, so cooperative co-existence is called for. How can this look like? What role do the NAPs play in the MDS and vice versa?

Let's see what is on the horizon and discuss!

Do you want to be part of the discussion, join the session together with:

- Lucie Kirstein / CSA PrepDSpace4Mobility / acatech – Deutsche Akademie der Technikwissenschaften
- Michael Schäfer / German Mobility Data Space
- Dr. Johanna (Yanna) Tzanidaki / ERTICO - ITS Europe (tbc.)
- philippe crist / ITF - International Transport Forum (tbc.)
- Gilles CARABIN / @European Commission, DG MOVE (tbc.)

Title NAPCORE Mobility Data Days "Compliance assessment to support data & service providers"	
Date 26 th October 2022	
 The poster for the NAPCORE Mobility Data Days event, titled "Compliance Assessment to support data & service providers". It features the NAPCORE logo and lists the date as 3rd November 2022, 13:30 - 15:15 (CET), in ROOM 3.D.2. The moderation is by Damaris Anna Gruber - AustriaTech. A list of participants includes Konstantin Gareiss - AustriaTech, Cathrine Benítez Ruud - NPRA, Petr Bureš - TamTam Research, Alexander Klein - Mobilitätsverbünde Österreich OG, and Rebeca Joaquín Graña - Google Maps Partnerships. The event is held at Paris-La Défense, Grande Arche and Tour Séquoia, and is co-funded by the European Union.	
Text ● NAPCORE Mobility Data Days ● Compliance assessment to support data & service providers  3rd November 2022 - 13:30 - 15:15 Compliance Assessment shall serve to increase interoperability for data exchange, usability and uptake of Data and services – the session should work out advantages of conformity and collect required support for data & service providers

PROCEEDINGS

● NAPCORE MOBILITY DATA DAYS 2022 – PARIS ●

 4TH NOVEMBER – 8h45-10h15

Session: MMTIS Revision - “MMTIS data on NAP: Challenges and opportunities.”

The session on the revision of the Delegated Regulation on Multimodal Travel Information Services (MMTIS) was organized following the announcement of the European Commission to review the relevant Delegated Regulation.

The project leader at DG MOVE explained the goals of this revision and provided an overview of the European Commission’s intentions, which was much appreciated. Colleagues from several working groups in NAPCORE showed some first results of their work, thus giving useful insights into challenges and opportunities.

Questions and remarks from the audience on issues such as data standards, data quality, governance of the NAPs, and alignment in the definitions of key terms helped to make it clearer what is at stake.

While planning this session, the intention was to put a first step towards a common NAPCORE position on the Commission’s proposal of the revised MMTIS regulation. And indeed so, we left Paris with several concrete elements to that end – as well as with an enlarged, well-informed and warm

PROCEEDINGS

● NAPCORE MOBILITY DATA DAYS 2022 – PARIS ●

📅 4TH NOVEMBER – 10h30-12h00

Session: Implementation of MMTIS Regulation

The session introduced a range of material to the audience that could be used to facilitate the implementation of MMTIS regulation such as CEN standards, websites, Github repositories and DATA4PT ongoing support (validation tools, technical support, webinars...).

During the session, the over 20 attendees answered different questions about their expectations, needs and challenges on this topic resulting in valuable information for the development of further support.

At the end of the session, a Q&A round addressed some specific questions that the audience had regarding the necessity to create a common glossary between the legislation to align the terms.

PROCEEDINGS

● NAPCORE MOBILITY DATA DAYS 2022 – PARIS ●

 3RD NOVEMBER – 13h30-15h15

Session: Compliance Assessment

The compliance assessment session at the first NAPCORE Mobility Data Days in Paris was a great success.

The necessity as well as the deepening of the topic area was recognised by the large international audience.

Panel speakers from Austria, the Czech Republic, Norway, as well as Google Maps Partnership as a representative of the private sector were there to clarify their findings, experience reports and further requirements.

After the session, the results such as the structure of the compliance assessment process, the implementation in practice as well as quality criteria were discussed, and a lively debate continued among all stakeholders.

Title NAPCORE 7th Conference on Sustainable Mobility and Intelligent Transport Systems in Cyprus
