

NAPCORE's future – here to stay

**Enlarging the scope of future NAPCORE:
more multimodality!**

09/11/2023 – Emmanuel de Verdalle | ITxPT

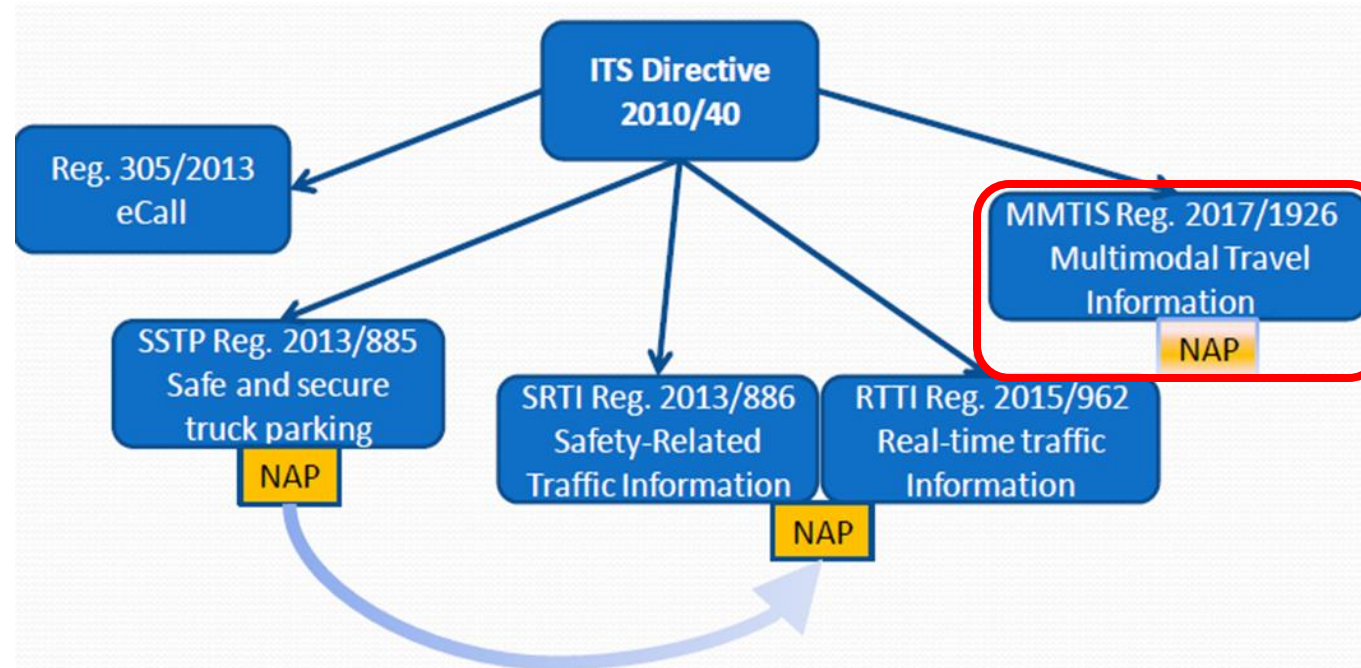

Co-funded by
the European Union

ITS EU directive 2010/40 and MMTI 1926/2017 Delegated Regulations

- Establish a framework for coordinated and effective deployment and use of ITS within Member States (MS) and across borders;
- Develop specifications necessary to ensure the compatibility, interoperability and continuity for the deployment and operational use of ITS for priority actions.
- The definition of the necessary requirements to make EU-wide multimodal travel information services accurate and available across borders

Today, DATA4PT project provides support in different ways

Capacity Building

Trainings, Knowledge base, Wiki page

Technical support

Validation Tools

Exchange of experiences and best practices
Stakeholders' fora

Support beyond project duration

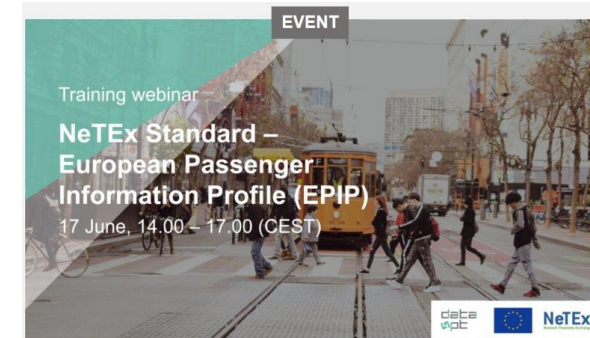

Business model

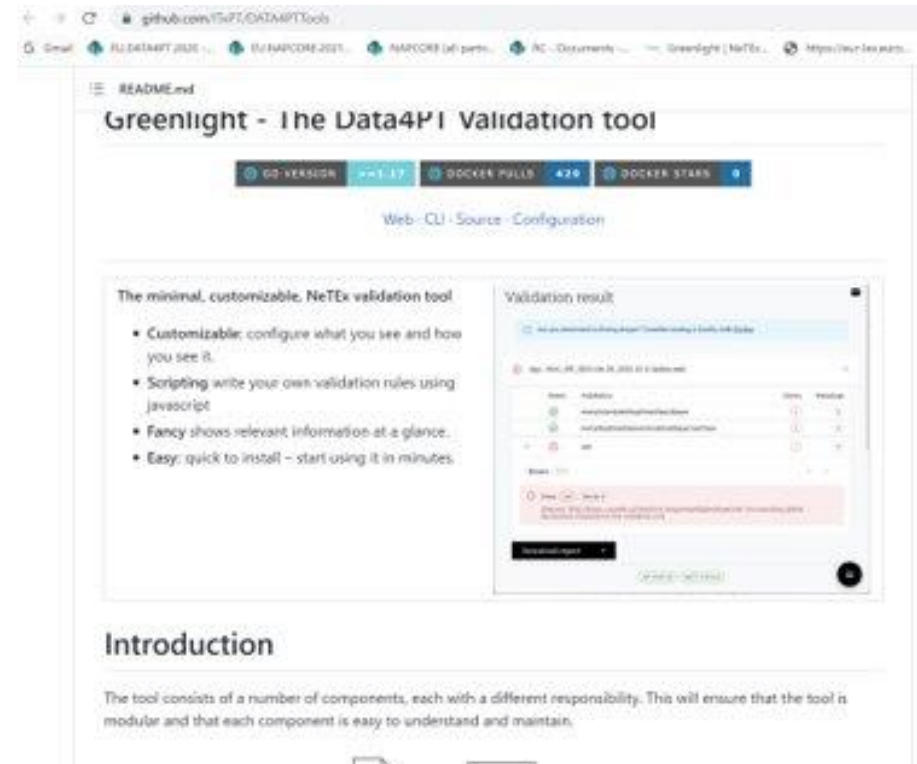

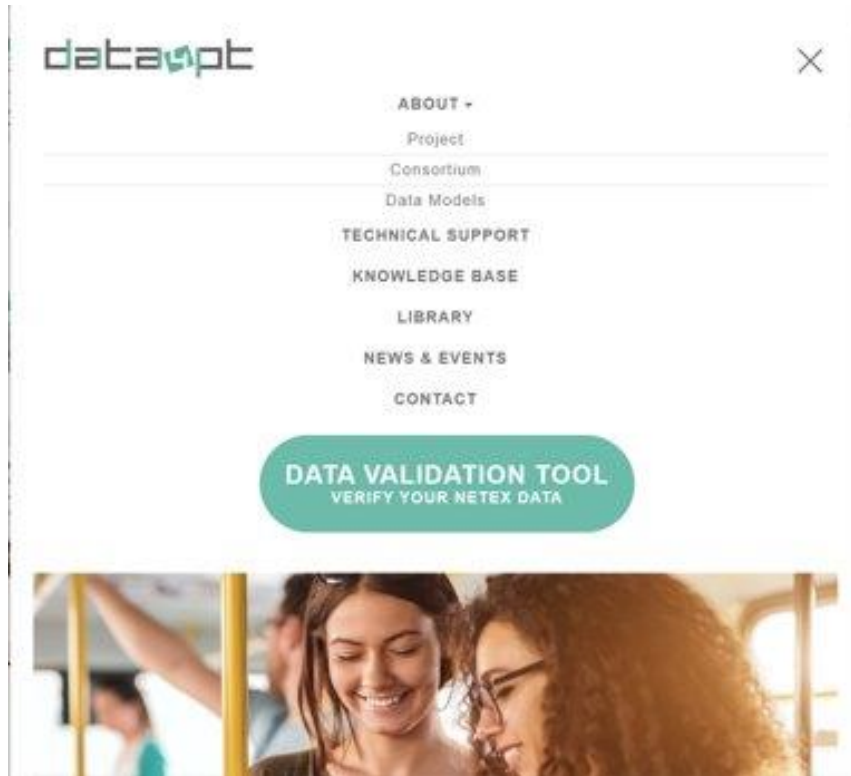

data4pt

Training webinars

- <https://data4pt-project.eu/knowledge-database/training-material/>

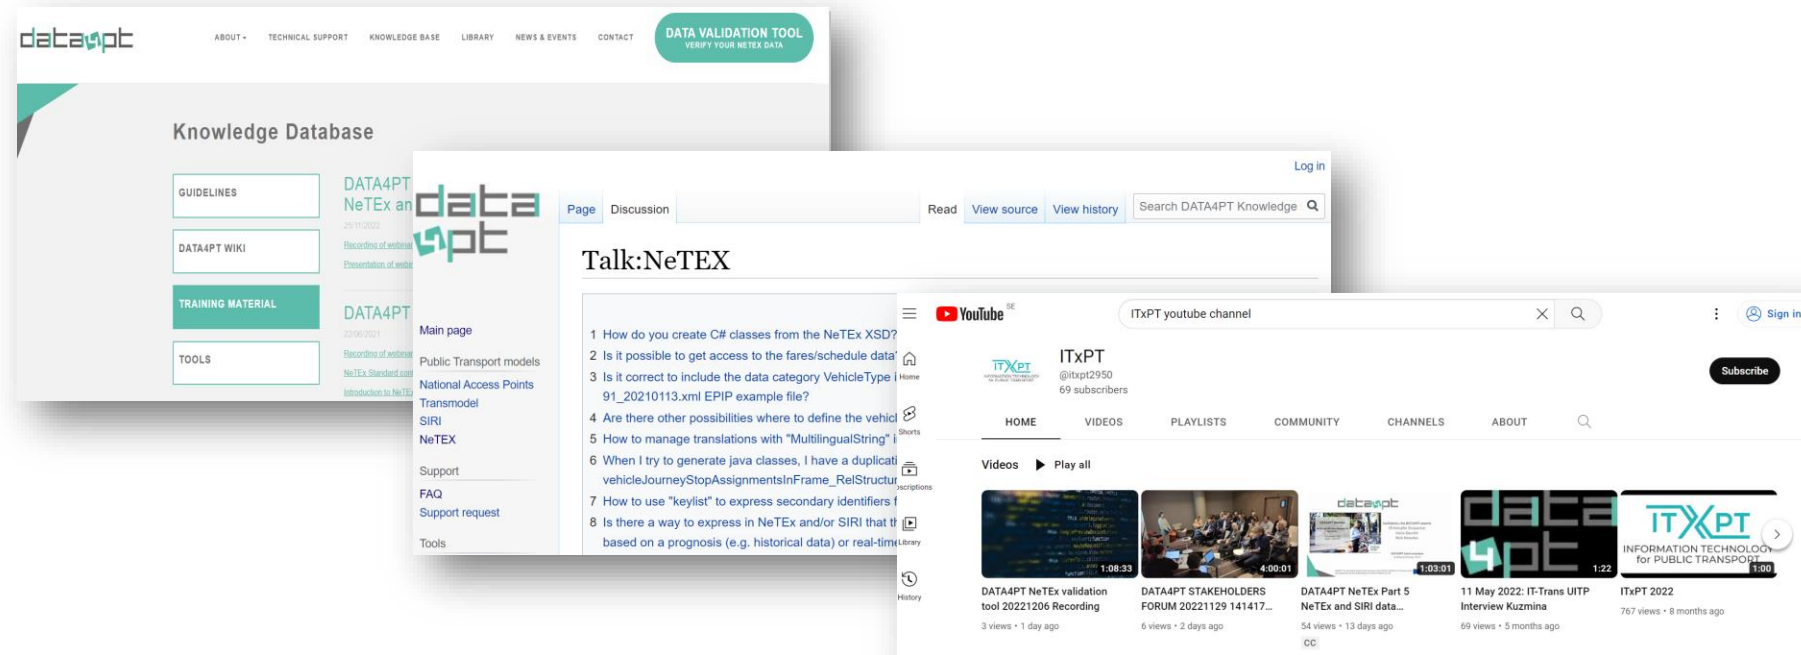

Validation tool – NeTEx dataset

Documentation center

- **Supportive material:** Video tutorials, presentations, FAQs and more → aim to create a centralised web space of all supportive info

What's next ? Key multimodal activities, supporting implementation of MMTIS

→ Ensure continuity of multimodal activities after DATA4PT and NAPCORE

- Standards developments
 - Maintain and update the technical artefacts ((XSDs, XML etc.)
 - Transmodel ecosystem update (incl. work on API specification) : NeTEx, SIRI, OJP, OpRa
 - Define and update SIRI and Netex EU profiles
- Transmodel support activity for data holders (capacity building)
 - Support stakeholders on request (day to day hotline)
- Software tools + data set validation
 - Develop, maintain and update tools

What's next ? Key multimodal activities, supporting implementation of MMTIS

→ Ensure continuity of multimodal activities after DATA4PT and NAPCORE

- Training activities
 - Mass-training events
 - Webinars
 - Customised training
- Ecosystem harmonisation
 - Build liaisons and actively support coordination between standardization activities
- Access nodes identifiers
 - European stop points registry
